

WG4 Status Report

**17th NEAOSS Promotion Forum
in Yokohama**

15 Nov 2018

WG4

Application Promotion Working Group

Role of WG4

NEAOSS Forum formed WG4

To carry out tasks on
OSS application model,
market environment research,
to spread and apply
CJK's OSS achievements
(in Oct 2011 at XiAn)

Activities in 2018

- The PilotPJ that we have worked so far has ended last year. Therefore, we focused on examining future policy of activities as activities of this year.

- 1st Meeting in Beijing / 10th May
- 2nd Meeting in Beijing / 27th Jun
- 3rd Meeting in Beijing / 17th Aug
- 4th Meeting in Seoul / 21th Sep
- 5th Meeting in Beijing / 10th Oct

Activities in 2018

- In order to examine the future WG 4 activity policy, we must emphasize the fact that utilization of OSS is already popular.
- Likewise, it is important to emphasize that OSS is utilized in various proprietary software.
- Based on these two points, we considered to change the search of Pilot PJ in the future.

Future Plan

- We have decided as an opportunity to discuss again the direction of future activities of WG 4 and have been discussing.
- OSS is already a source of software technology worldwide and is widely used as a development material for commercial software products.
- Based on this fact, in the future WG activities, regardless of OSS, we will work on searching for projects that make use of new technologies and use case.
